Buenos Aires, June 19th, 1962.

Messrs.  
LLOYD'S REGISTER OF SHIPPING,  
71, Fenchurch Street,  
London, E.C.3.  
England.

Dear Sirs,

Installation & Trials of new  
type of berthing - Tanker  
"CUTRAL CO".

+100A/ Oel Tankers

I have pleasure to inform you that in accordance with the records in possession of your representative in Rio Janeiro, Brasil, the system of berthing and capstan were modified on the above vessel. This was considered necessary on account of the serious deficiencies observed which affected the safety of the ship.

The said modification was carried out between the 17. 5. 62 and 8. 6. 62 by the Yard Verolme Estaleiros Reunidos of Brasil, S.A., of Jacuacanga.

As it was understood that in addition to the inspection of the installation of the new mechanism, representatives of your Classification Society were also to carry out the survey of the berthing trials and of the working of the system which were held on the 8. 6. 62 in the proximity of the above yard, a Surveyor to this end was requested by the personnel of the yard.

Due to the negative response of your Surveyor in witnessing the referred trials, we shall esteem it a favour if you will be good enough to inform us on this matter.

Yours etc.
