

"C A L B E"

Refer cable received 29.12.65.

SUBMITTED Owners be informed we confirm the information given them by Ship-builders is correct. The "heavy cargo" notation was not recorded in the Register Book but the Classification Certificate issued upon completion of ship was endorsed to the effect that additional strengthening for heavy cargoes had been incorporated in the ship. They should also be informed that when classed the ship was suitable for the carriage of a homogeneous cargo of ore.
