RECEIVED

13 JUN 1958

Ans'd

Dear Sir,

Motor Tug "HEATH COCK"

In reply to your letter of the 9th inst., regarding the above motor tug, the Surveyors state 90 fathoms of chain cable only were supplied to this vessel.

With regard to the W.T. Bulkheads, the three bulkheads reported are positioned at the frames 47, 36 and 6, and these are the W.T. bulkheads shown on the drawings.

It is assumed that you have misinterpreted the drawing in respect of the bulkhead at frame 32 which does not extend to the ship's sides.

Freshwater is the cooling medium used for the main engine cylinders.

Yours faithfully,

CE Seacock
Secretary to the
Liverpool Committee.

The Secretary,
London.
