Your Ref:.....

Our Ref:.....

Dear Sir,

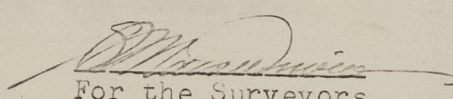

m.v. "LENKORAN" Kobe Report No.10175
Propeller

In our report, the blade thickness of the bronze propeller is given as 236.3mm., which is correct, but in the case of the m.v. "~~LISICHANSA~~" Kobe Report No.9932, the blade thickness at the top of root fillet is given in error and should read 236.3mm., the figure of 395mm. as reported was the throat thickness and not top of root fillet.

We would appreciate it very much if you would be kind enough to amend this figure accordingly.

Regretting inconvenience caused in this matter.

Yours faithfully,

For the Surveyors.

The Secretary,
LONDON.
