Dear Sir,

And, [unclear]

With reference to your letter of the 7th instant, addressed to the Society's Surveyors at Greenock, regarding the motor vessel "POWELL", Messrs. Lithgows Ltd, Yard No. 1046, I beg to acquaint you that Greenock F.E. Reports No. 24249 were submitted to the Scottish Sub-Committee of Classification at their Meeting today, when the vessel was classed subject to a doubling plate being fitted on upper deck in poop in way of access opening to separator gastight space at the earliest opportunity.

I may say that it is understood from the Owners that this will be attended to on the vessel's return from the Antarctic next Spring.

Yours faithfully,

Secretary to the
Scottish Committee.
