22nd August, 1956.

Dear Sirs,

Admin/F

I duly received your letter of the 15th instant regarding the complaint received from Messrs. Richard Dunston Limited with regard to fees charged for the survey of the auxiliary electrical equipment of the "ESSO LEEDS" (your First Entry Report No. 62347) and in reply I have to inform you that you are quite in order in debiting the Shipbuilders with the full scale fee in such cases.

It should be explained to Messrs. Richard Dunston Limited that the published scale for the survey of the auxiliary electrical equipment covers work required in accordance with the Society's Rules. The generators in this case, being of under 100 KW, are not required to be inspected by the Society's Surveyors during construction at the Makers works and their request for such inspection must be regarded as being additional to classification requirements, for which an appropriate fee is chargeable.

Your comments with regard to the general question of fees for electrical equipment have been duly noted.

Yours faithfully,

N.W.B.

pro Secretary.

The Surveyors,  
HULL
