Dear Sirs,

Steamer "MARIAROSA AUGUSTA"

I acknowledge receipt of your letter of the 3rd ultimo, the contents of which have been noted.

With regard to the diameter of the wheel shafts, the figures reported in your Rpt. 4a, No. 14790, are:-

Diameter of Wheel Shrouds.

- 1st HP 2178 mm. i.e. about two metres (2M)
- LP 2009 mm. i.e. about two metres (2M)
- Main 4089 mm. i.e. about four metres (4M)

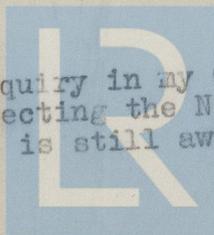

These figures would appear to represent the diameters of the wheels, whereas the diameters required are those of the shafts in way of the wheels.

Yours faithfully,

pro Clerk to the  
Classification Committee.

The Surveyors,  
TRIESTE.

P.S. A reply to the enquiry in my Classing Letter of the 1st July last respecting the No. 5 tanks, port, centre, and starboard, is still awaited.
