

PENNSYLVANIA SHIPYARDS, INC.

BEAUMONT, TEXAS.

February 3, 1937.

Mr. C.F. Macdonald,
1723 - 27th Street,
Galveston, Texas.

Dear Mr. Macdonald:

Referring to your letter of January 30th, Texas Company Barges, Nos. 396-7 and 8 were built of steel manufactured by the Carnegie-Illinois Steel Corporation to American Bureau specifications for hull steel dated 1922.

With reference to barges we are now building for the Texas Company we propose to use electrodes manufactured by the Lincoln Electric Company of Cleveland, Ohio. The electrodes are coated rods known as (Fleetweld No.5). This same electrodes were used in the construction of Texas Company Barges Nos. 396-7 and 8.

Trusting the above meets with your approval, we are

Yours very truly,

PENNSYLVANIA SHIPYARDS, INC.
