

Are relief valves or safety discs fitted yes No. of cylinders to each unit 2 L.P. & 1 H.P. Diameter of piston rod - Length of stroke 125 mm No. of revolutions per minute - Motive Power - (power.)

M/V KOSOH MARU

SHI. 570

This vessel's refrigerating machinery has been built and installed under Special Survey in accordance with approved plans and rule requirements.

All necessary tests have been satisfactorily carried out.

It is SUBMITTED this refrigerating installation merits approval with record of:-

+ LLOYDS RMC 6/52

to maintain temp. 0°F. with heat temp. 90°F. maximum

The Surveyors should be requested, in all future cases, to attach all RMC certificates to the Rpt 17, and to await the Hull & Machinery reports.
