

25th April, 1962.

BANGKOK

2678 "FIONETTA" - As recommended, the class of this ship having been amended to #100A1 "Oil and Molasses Tanker, FP above 150°F" "Gulf of Thailand Service". The class is subject to the stream anchor and 45 fathoms of chain cable supplied at this time being verified with test certificates at the earliest opportunity. In this respect if the test certificates for this equipment are not readily available you should arrange to obtain the test particulars of each length of chain cable and the stream anchor from the test markings on the equipment and forward this information to this office. Your comments on this are now awaited.
