

Received by Chief Engineer Surveyor..... Received from Chief Engineer Surveyor.....

VESSEL'S NAME Beaton Park Rpt. Ver. No. 6046

B. C. Certificate - 20-9-43.

Remarks of the Chief Engineer Surveyor are desired on this case for the consideration of the Classing Committee.

(“The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement.”—Extract from Sub-Committee's Report, 24/5/92.)

Type of Engine Triple Expansion.

If Boilers fitted with forced draught

Yes

Tail Shaft. If fitted with a continuous liner

Yes

If fitted with an outside gland of

No

approved type

*The main engines have been constructed under British Corporation survey & a certificate received. The plan of boilers approved in New York has not yet been received here, but the scantlings given in the report meet the Rules except in respect of the tubes. These however comply with American practice. Boiler headers & parts of superheaters have been made under American Bureau survey.*

This vessel's machinery appears to have been built in accordance with the Rules and the approved plans, and it is submitted she is

eligible to be classed LMC \* 11.43.

Fitted for oil fuel 11.43, F.P. above 150°F.  
2 WT8 250 lb. (Ht. 230 lb.)

L.L.  
15/2/44.
