Dear Mr. Sladden:

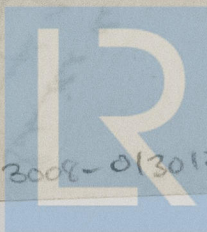

S/S TRANQUEBAR
N.Yk. 47778

Referring to the inquiry contained in your letter of the 30th December regarding the possible use of No. 4 deep tank for the carriage of cargo oil, Mr. Bloomfield advises that he has been unable to find any record that adequate means for locking shut the suction valves were fitted, and the owners' representative here is also unable to confirm that this requirement was carried out.

Yours faithfully,

R.J. Sladden, Esq.
