

WOKINGHAM COPY.

26th May, 1941.

N.W. Betts

Dear Norman,

I gave Mr. Young your additional copy of London Report No.109309 for the unfortunate case of the "EMPIRE GAT", but find that as anticipated, he still wants a copy of the report of the replaced engine, the original of which is now in the Clyde district for the guidance of the Surveyors in dealing with the case of the "EMPIRE CAPE". In the circumstances I shall be glad if you will kindly drop a note to your friend Stewart to obtain a copy for us and arrange for it to be forwarded direct to me here.

Yours,
