12th August, 1954.

Dear Sirs,

Classn.
(H)

I am in receipt of your letter of the 10th instant respecting the Motorship "PERICLES", and with regard to your second paragraph I have to inform you that the Special Survey in this case was carried out at Marseilles in July/August 1953 and it will be noted that the notations S.S.Msl-8,53 and LMC CS 8,53 have been posted in the Register Book.

To complete the Donkey Boiler Survey for the record DBS 8,53 the safety valves of the exhaust gas economiser require to be placed in order and adjusted.

I may add that in addition to the items mentioned in your report No.5172 the vessel's class is subject to easing gear for exhaust gas economiser safety valve being placed in order at the earliest opportunity.

Yours faithfully,

Copy to God

Clerk to the
Classification Committee.

The Surveyors,

NAPLES.
