The Secretary,  
LONDON.

Dear Sir,

m.s. "PERICLES".

With reference to your classing letter dated the 18th instant relative to First Entry Report No.16976 on the above named vessel, I enclose herewith the Makers' Test Certificates in respect of the steering gear motors, which documents due to a regrettable oversight were not attached to the report.

As regards the approval of the crankshaft plan and torsionals of generator engine No.2040, I have to state that your letter dated the 8th March, 1947, referred to the general approval of the engine type DM 240/360 H.4 submitted by these Builders. It is regretted that this was not made clear in our report.

Yours faithfully,  
THE SURVEYORS, Gothenburg
