Last seen in drydock 10.54.

DISCLOSED
SECTION
No. 679

Proposed to be not stated.

Remarks In March, 1957 a report was received from a Surveyor
appointed by Lloyd's Agents at Coatzacoalcas dated July, 1956,
but the report was couched in such vague terms that it could not
be considered acceptable for Classification Survey.

The case received consideration on the 19th July when the
New York Office were instructed to inform the Owners that unless
a satisfactory proposal for early drydocking and screwshaft survey
be received by the 9th August, the Committee will have no option
but to suspend the vessel's class.

The attached cablegram has been received from the New York
Office.

Chief Surveyors' recommendations Admission the vessel, class be suspended

Set
7/18/57

Committee's Minute

FRIDAY 16 AUG 1957

Decision

Class suspended
