ENCLOSURES.

7th July, 1921.

Dear Sir,

I beg to acquaint you that a steel single-screw motor barge, Yard No.1343, has been built by Messrs.The Rennie Ritchie & Newport S.B. Co. of Wivenhoe, to the order of Messrs.Perman & Co., Ltd., on behalf of the Cia.Mexicana de Petroleo "El Aguila", S.A., of Tampico. The vessel has been Surveyed during construction at the Builders' Yard by the Surveyors of this Society, with a view to classification in this Society's Register Book, but has now been dismantled and shipped to Tampico, where it is understood she will be re-erected in the Owners' own Yard. Messrs.Perman & Co. have communicated with the Owners, who desire that the work of re-erection and completion may be carried out under inspection, with a view to the vessel being classed on completion in the Society's Register Book. As, however, the Society has no Surveyor stationed at present at Tampico, the Committee will be obliged if you will be so good as to appoint an independent and competent surveyor to survey the vessel during re-erection and completion, with a view to her eventually being classed in the Register Book. For your information I enclose a copy of the First Entry report of survey held on the vessel while building, together with photo-prints of the approved plans of the vessel, and I shall be glad if you will be so good as to see that the Surveyor fills up and completes the enclosed form, at the same time reporting fully on the work for the information of the Committee in dealing with the case.

Messrs.Perman & Co. suggest that in the first place it would be well for the Surveyor to place himself in communication with Mr.F.W.Blake, the Marine Superintendent for the Owners at your Port, and I may suggest that it would be well for the Surveyor also to make arrangements with the Company in the first instance as to the fee to be charged for his services in the case.

I am, Dear Sir,  
Yours faithfully,

J. J. Pulford, Esq., O.B.E.,  
British Consul & Lloyd's Agent,  
TAMPICO, Mexico.
