Dear Sirs,

Motorship "DUE GOLFI"

The Donkey Boiler Survey, which became due on this ship at the end of October last, has been partly held, and to complete the inspection for a record DBS 11.58 the safety valves require to be adjusted and the oil burning arrangements to be examined under working conditions.

The question of completion of this inspection has been the subject of correspondence with the Surveyors in Italy, and it is now learned that the ship is proceeding from Sfax to Denmark where the survey will be completed.

In the circumstances, I shall be glad if you will give the case attention and advise me immediately should the ship arrive in Denmark and leave without having the outstanding items dealt with.

For your information I may add that the postponement of the Special Survey until October, 1959, has already received the approval of the Committee.

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors,  
COPENHAGEN.
