held)

For record D.B.S. 11.58.:- Safety valves to adjust and
oil burning arrangements to examine under working
conditions.

onements
ly agreed

The Committee agreed on the 26th February, 1959 to the over-
due Donkey Boiler Survey being completed at Alexandria where
the vessel was then proceeding. On the 6th March, 1959 the
Alexandria Surveyor stated that no action had been taken by
him, as the vessel was to pass through the Canal, but that
he had informed the Port Said and Suez Surveyors of the
position. The Port Said Surveyor cabled on the 11th March
that the vessel has proceeded to Greece without the Donkey
Boiler Survey being completed. On the 12th March the
Committee decided that the Survey must be completed in
Greece, or at the latest, on the vessel's return to Port Said
in April, and the Naples Surveyors were requested strongly to
impress upon the Owners the necessity of complying with this
decision. On the 4th May the Naples Surveyors cabled that they
were informed by the Owners that the vessel was under survey
at Ravenna for completion of the Donkey Boiler Survey.
