KOBE, JAPAN

Classn(S)

22nd September, 1958.

Dear Sir,

"OCEANIA MARU"  
Kobe Report No. FE-6032.

We enclose the above report together with the plans referred to therein. The delay in forwarding this report has resulted in an investigation in this office as to the cause. It appears that the "as fitted" plans were promised by the builders several times and on the writer becoming aware of the position, a special visit was made to Hiroshima last week by one of the surveyors concerned. This resulted in the plans being received within a few days.

We wish to apologise for this report being overdue but arrangements are now made to ensure there will be no recurrence or future cases of a similar nature. "As fitted" plans, if not received at the time the report is completed, will be forwarded later. We trust you will concur in this arrangement.

Yours faithfully,

For the Surveyors.

Enclosures: Sent under separate cover.

The Secretary,  
LONDON.
