CARDIFF.

Dear Sirs,

S.S. "TEBRO" ex "BARON MACLAY"

In order to comply with a request from the Registro Navale Italiano we would ask you to kindly procure for us from the Lloyd' Register of Shipping or from the British Corporation, where the ship is classified, the following documents:

a) A declaration to the effect that the drilling of the hull was effected not over eight years ago, with a copy of the prospect drafted at the time of drilling.

b) Copy of the Surveyor's report relative to the visit effected to the tail shaft in November 1956.

Such documents are needed because otherwise we should be compelled to repeat the operations in question with consequent heavy expenses and loss of time.

Thanking you in anticipation, and apologizing for the trouble we are giving you,

Yours faithfully,
