6th February, 1963

R.  
TC/MRN

Dear Sirs,

S.S. "EVANDROS"

With reference to your letter of the 12th October last, I would inform you that to complete the Main Boiler Survey which was commenced at Newcastle, and further advanced at Hartlepool, the starboard boiler requires to be examined in its entirety, the funnel to be examined, the oil fuel installation to be examined under working conditions and the safety valves of the starboard boiler to be adjusted under steam. I shall be glad to learn, for the early information of the Committee, within what definite period these matters will be dealt with, as this Survey became due as long ago as April 1962.

Your intentions regarding the Screwshaft Survey referred to in my letter of the 14th December will also be appreciated. I would take this opportunity to remind you that the Steampipe, and Special Surveys become due at the end of March and April respectively, as it may well suit your convenience to carry out these inspections at the sametime as the completion of the Main Boiler Survey and the Screwshaft Survey.

Yours faithfully,

Clerk to the  
Classification Committee

Messrs. J.P. Hadoulis Ltd.,  
6, Lloyd's Avenue, E.C.3.
