

COPY AIR LETTER.

CABLE

5th September, 1949.

Dear Sirs,

With reference to my letter of the 6th May last and previous correspondence regarding the Steamers "LIBERTADOR" and "POBLADOR", I have to inform you that it is observed from the Shipping Papers that the replacement vessels have now arrived at your port and in the circumstances I shall be glad to learn what arrangements have been made by the Owners to submit the former two vessels to further survey.

S.S. "EL ZARATE" (B.C. Class).

I have to acquaint you that this vessel will be entitled to a notation of S.S. B.As. 10,45 when the bottom plating and bilge brackets in way have been satisfactorily dealt with and repairs effected to H.P. pistons and the B.C. Surveyor at your port recommended these repairs be postponed until the Special Survey (due 10,49) is undertaken. The Surveyor stated in February last, however, the Owners had informed him that these repairs would be dealt with before the Special Survey becomes due next month. In the circumstances I shall be glad if you will ascertain from the Owners and let me know when it is proposed to carry out the Special Survey, which will include the requirements of the Annual Classification Survey, due 5,49.

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors,  
BUENOS AIRES.
