Dear Sirs,

s.s. "STAMATIS"

With reference to my letter of the 7th May, to which I do not appear to have received a reply, I shall be glad to learn for the early information of the Committee at which port in the United States the required General Examination of the hull and machinery was carried out.

I have also to inform you that to complete the Main Boiler Survey, due at the end of April, 1964, the port boiler remains to be examined throughout, its safety valves adjusted under steam and the oil burning system and remote controls examined working.

It will also be appreciated if you will advise me as to your intentions with regard to the completion of the Boiler Survey.

Yours faithfully,

c.c. N.Yk.

Clerk to the  
Classification Committee.
