I have surveyed the above ship in accordance with the Rules for

Docking Survey.

Damage - stated to have been caused by heavy weather whilst proceeding from Workington to Liverpool, on the 4th January, 1964.

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated.
Found and Now Done for Permanent Repairs :-

Centre girder to shell rivets, also centre girder to shell bar rivets slack and leaking heavily in way of centreline pillars at hatch transverse strong beam - rivets renewed, and athwartship, and Fore and Aft pillar bottom brackets to floors and centre girder fitted to distribute load from pillar (open floors).

(p & s) shell web frames at mid-hold fractured at toes of bottom brackets - fractures veed and welded and new larger depth web brackets fitted elec. welded with overlap connection on webs.

F.P. tank bulkhead fractured (p & s) in way of end bracket connedtions of shell panting stringers - bulkhead plating cropped and part renewed and brackets re-connected thereto by elec. welding, toe of bracket in line with bulkhead stiffener.

On completion of repairs, F.P. tank tested and bottom shell flood-tested and repairs found good.

Conditions of Class (No. 211) :-

Set up bottom plating for'd - examined and found efficient - Nothing done now.
 P.T.O.

I recommend that this ship remain as classed with ~~xxxxx~~ fresh record of dry docking 1,64, subject to all conditions at present attached to the ship's class being dealt with as previously recommended.

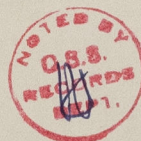

(Where conditions of class are recommended to be retained, imposed, amended or deleted, particulars must be stated above and on the interim certificate.)
