RECEIVED

11 7 OCT 1961

Calle 25 de Mayo 158,

Ans'd.....

9th October 1961.

BUENOS AIRES,.....

All communications to be addressed to  
THE SURVEYORS

Dear Sir,

"GOYA" Buenos Aires First Entry  
Rpt. No. 32214.

We have to acknowledge receipt of your Classing Letter of the 19th. September last, same having regard to our First Entry Report in respect of the above vessel.

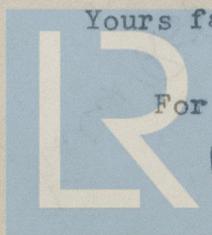

In reply thereto we would forward the following information-

- (1)-Method of initial charging of air receivers is by the use of the smaller diesel generator as supply of electrical power to existing air compressors. This generator is either hand or battery started.
- (2)- It is confirmed that the draught reported is incorrect, it being here confirmed as in accordance with your letter of the 19th. October 1960 and should have read 8'-0". RR
- (3)- With regard to approval of cartridge type of fuses, we can but only regret that due to an oversight on our part approval was never sought, and after expressing ourselves to Builders on this point we find ourselves in receipt of their official remarks, same attached in "free translated" letter form for your information.

With regard to this letter we will onforward information as soon as it comes to hand from Siemans through Builders.

Yours faithfully,

For the Surveyors.

The Secretary.  
LONDON.
