Baltimore-2, Md., U. S. A.

March 22, 1960

Chief Representative and  
Principal Surveyor  
New York

Dear Sir:

"PARADISE ISE"  
(ex "PARADISE BEACH")

We have been informed that the above vessel departed in tow from this port on March 17, 1960 bound for Miami at which port, it is stated, she will be drydocked prior to proceeding to Nassau in the Bahamas.

Our Report 10 for the examination at Baltimore has been forwarded to the Owners (copies enclosed).

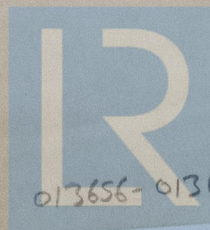

In addition to the above Report 10 an extensive condition survey afloat on the hull and machinery was carried out and this together with a final report from Mr. Hallbauer may be presented to the Committee in order that the request of the Owners for an adjustment of the next Special Survey date may be considered.

It is regretted we were not informed by the Owners of the intended date of departure so that a more recent final survey date could have been entered on the enclosed Reports 8 and 9.

Yours very truly,

*E. Flynn*
