

29 JAN 1964

Ship's name

"CAMPERO"

Port

CDZ

No. 3508.

Last survey date 28/10/63.

Class is subject to-

M.B.

the Port Boiler not being used until repaired.

---

CSM advanced.

Docking. Weardown: P - 3.9mm., S - 4.5mm.

ABS due 10.63. Now held.

Repairs effected to Port Boiler by renewal of inboard furnace and jacking back of outboard furnace. Boiler hydraulically tested on completion and the Surveyor recommends the subject of class be deleted.

IT IS SUBMITTED that this vessel is eligible for the record ABS 10/63 now, without subject.
