Dear Sir,

S.S. "NAFPLION"

In forwarding the attached Rpt.8 in respect of the above vessel, we would comment that the vessel was examined at Nafplion at the Owners request, to satisfy the Authorities at that port.

No machinery was opened up at this time as, on completion of discharging the vessel was proceeding to Piræus (approx.60 sea miles) for Special Survey. No Rpt.9 has, in consequence, been issued, but all machinery items which may have been affected by the grounding will receive special attention during the Engine Survey.

The vessel arrived at this port on 5th March.

Yours faithfully,

For the Surveyors,

The Secretary,
London.
