

1st January, 1960.

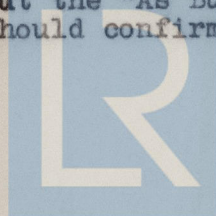

NAPLES

6895 - As recommended.

6821 "PALLADE" - This ship has to-day been classed +100A1 together with the appropriate notations recommended by you.

In future similar cases when certified copies of approved plans are forwarded they should be initialled by the Surveyor. Furthermore, separate "As Built" plans of Midship Section and Profile and Decks must be forwarded for each ship, as per Instructions to Surveyors, Part 2a, 1950, Paragraph 26.

It is noted that 204 mm. direct bilge suction is reported as being fitted on the starboard side in accordance with the amendment of the approved plan, but the "As Built" plan shows the valve on the port side. You should confirm the correctness of your report.
