The Undersigned, S.L. BOYES, surveyor to this Society did at the request of Messrs. Metropolitan Vickers Electrical Co. Ltd., attend their works on February 1, 1944, and subsequently to survey during construction one set of 6800 S.H.P. double reduction geared turbines designated works No.4393 (turbine) and No. 4399 (gearing).

The material was tested by the surveyors to the British Corporation Register and the machinery constructed in accordance with the approved plans, the requirements of the Rules and the machinery specification.

The identification marks on the rotors and shafts are as follows:-

H.P. turbine rotor spindle	PF 43266-AWJ-BC-897
L.P. turbine rotor spindle	PF 43275-AWJ-BC-F903
Main gear wheel shaft	PF 42904-AWJ-BC-18094
