This is to Certify that I have surveyed the S. S. "KARYATIS" gross tons 1920 of Piraeus, as she lay in King George dry dock, on the 23rd September, 1967 and subsequently, in connection with the docking survey,

and that I am transmitting to the Committee of Lloyd's Register of Shipping, London, a report, stating that all repairs recommended by me have been completed to my satisfaction, also that I am recommending that she be retained as classed with fresh record of dry docking 9/67 subject to the wavy bottom shell (port and starboard) being kept under observation and to 225 fathoms of anchor chain cable being supplied at the earliest opportunity and not later than 11/67 and to all other conditions at present attached to the ship's class being dealt with as previously recommended.
