Barcelona 24th December 1949

Naviera Morey  
BARCELONA

Dear Sirs,

s.s. "JOSINA"

I beg to refer to letters and conversations sustained in connection with the Special Survey for the Classification of the above vessel, which was due on March 1948 and the period granted to the Owners for the completion of the Special Survey and necessary repairs in September 1948.

In view that the Special Survey was not carried out in due time, in September 1948 was effected a General Condition Survey in order to postpone her Reclassification for a period of six months which ended in February 1949.

In these conditions and due to partial examinations which have been made in the ship, she has maintained her Class, and the Committee of this Society recommend now that the vessel be submitted to survey and completion of necessary repairs before the end of January next, because in case this recommendation is not complied with, with much regret they would be obliged to expunge the vessel's Class without another alternative.

Awaiting your reply,

I am, Dear Sirs,

Yours faithfully

F. Larrucea
