Superintendent Engineer,  
Port Line Ltd.,  
88, Leadenhall Street,  
London, E.C.3.

Dear Sir,

Waste Heat Boiler Safety Valves.

I wish to inform you that the safety valves of the Waste Heat boiler of the above vessel were floated on the 28th, November, 1964, while the vessel was on passage from Cardiff to Falmouth.

The valves were set to lift at 100 lbs/sq.in. and the thickness of the compression rings fitted were as follows:-

For <sup>W</sup> d valve	0.540"
Aft valve	0.504"

Yours faithfully,

*George Fairweather*  
Chief Engineer.
