Dear Sirs,  
"AWATA MARU"

In reply to enquiry the Yokohama Surveyors state that the hand air compressor, electrical equipment and testing of port and starboard main engines which are over due for survey according to records in this Office were in fact carried out at your port when the ship was in drydock on the 13th December, 1966.

As your report does not appear to have been received I shall be glad if you will arrange for it to be sent as soon as possible.

Yours faithfully,

pro Classification Manager.

The Surveyors,  
SHIMONOSEKI.
