

Chief Engineer Surveyor

Received from Chief Engineer Surveyor

NAME "AMADEO" ex "SAILMAKER'S SPLICE" REPORT

Vpo. 2643

Vpo. No. 2654

Rio. 4730.

Remarks of the Chief Engineer Surveyor are desired on this case for the consideration of the Classing Committee.

Endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also pointing out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points entered in the endorsement. — Extract from Sub-Committee's Report, 24/5/92.

~~REPAIRS-TO-ENGINES-AND-BOILERS-DUE-TO-DAMAGE-THROUGH~~

This vessel was built in 1945 and is classed with the American Bureau of Shipping, and is due for their Special Survey in 2.52.

Classification with this Society is desired.

In a letter dated 15. 3. 50 the Secretary confirms that on completion of a General Examination being carried out annually until the vessel is due for Special Survey, a provisional Classification could be assigned.

A General Examination now held and the Classification Survey begun.

IT IS SUBMITTED that the vessel WILL BE eligible for the record LMC with date when First Entry Reports on machinery, ~~boilers~~ (including the steam generator) and electrical equipment have been rendered and when a Special Survey of the machinery has been held (except the examination of the inboard diesel generator engine and the steam generator plant) and when the screwshaft has been examined.

See later
L.P.

The vessel is now eligible to have the record "Classification Contemplated, Examined 3.50".

The Valparaiso Surveyor should be informed that plans of the machinery will be required unless plans of identical machinery have already been submitted, details of which should be supplied.

A plan of the Cylo therm Type MC80 Steam Generator plant has been approved in an endorsement dated 4-8-50. (attached to "ANTARTICO"). J.S. 10.8.50.
