

WOKINGHAM COPY.

24th May, 1944.

S. Dear Sirs,

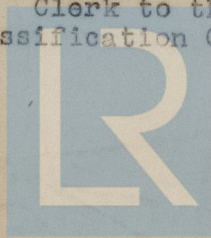

Motorship "TREVIDER". Report No.22688

With reference to the above mentioned report, I have to say it is concluded that the spacing of the  $2\frac{1}{8}$ " rivets in the double rivetted butts of the ends of the bilge strake is  $3\frac{1}{8}$ " as required by the Rules and not  $3\frac{1}{2}$ " as reported, but I shall be glad if you will state whether this is so.

I am, Dear Sirs,  
Yours faithfully,

The Surveyors,  
GREENOCK.

Clerk to the  
Classification Committee.
