

## Lloyd's Register of Shipping,

"Broströmia"

"Hertzia" Packhusplatsen 6,

Gothenburg, 7th March, 1928.

Enclosure.

The Secretary,

LONDON.

Dear Sir,

I beg to return herewith London report No.91528 for a Coltman vertical donkey boiler No.5062, forwarded us with your letter of the 5th July last. This boiler has now been installed in the M/S "RANJA", at present building by Messrs. A.-B. Götaverken and designated yard No.410, which vessel is being classed in the Norwegian Veritas.

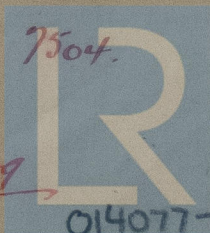

The plan for this boiler, to which the donkey boiler for the M/S "ABADAN" (Messrs. A.-B. Götaverken's No.409) has also been built, has been forwarded to you with our report on that vessel to-day.

I am, Dear Sir,

Yours faithfully,

*This boiler has been  
fitted to Mv. Nagara Got. 7504.*

Enclosure

LONDON.

Lloyd's Register Foundation

Referred to the Chief Engineer Surveyor.

For the purpose of the survey of the  
ship and the cargo, the Chief Engineer  
has been instructed to make a  
survey of the ship and the cargo  
and to report on the results of the  
survey. The survey has been made  
and the results are as follows:  
The ship is in good condition  
and the cargo is in good condition.  
The survey has been made in  
accordance with the instructions  
of the Chief Engineer.

Yours faithfully,  
[Signature]
