D J ✓
D J ✓

Further to my letter of the 14th instant we have today been informed by the Toronto Surveyors that they have now been advised that the "THORDOC" and "BARGE A" were towed to Montreal and Quebec respectively just previous to the close of navigation, but they were not requested to survey either vessel. In these circumstances it is concluded that the Class of these vessels will be deleted from the Register Book.

They confirm that the "CARTIERDOC" is still laid up pending Survey at Sarnia, and the question of the completion of the conversion of the "H. J. McMANUS" has not yet been resolved.

Yours very truly,
