AND ENGINEER SURVEYOR

Reference

Dear Sir,

lassn.(H).

We refer to previous correspondence and would advise you, that after several letters & two cables to the Owners of the "CRICIUMA", we are now informed that the ship will shortly be drydocked at Belem do Para or Natal, as they have no facilities at Aracaju. The Owners have promised to cable us within a few days and give definite advice as to which port will be used. As a visit to either of these ports would involve a journey of over 3,000 miles and heavy expenses it is proposed to arrange for a Lloyd's Agents Surveyor to undertake the necessary surveys, subject to your approval, and we shall, of course, advise the Lloyd's Agents fully on the surveys required. Should the Owners agree to carrying out the Special Survey (due 10,57) at this time we should propose carrying out the survey ourselves from this office, in which case it will be necessary to agree with the Owners upon this course and advise them as regards to fees and expenses.

The Secretary,
London.

Yours faithfully,

E. Harvey
