Dear Sirs,

S.S. "IRENE K"

When this ship was at Vancouver in October last, the Surveyor reported that the bottom plating of the bilge well in the deep tank was found to be perforated.

Temporary repairs were effected and the Committee have continued the class subject, inter alia, to these repairs being specially examined and dealt with as necessary on completion of the present voyage to U.K. ports. I shall be glad to know what arrangements have been made for this matter to be dealt with.

Yours faithfully,

Deputy Clerk to the
Classification Committee
