QUESTION

ANSWER

With reference to my letter of the 3rd July last, I am glad to learn if you are in a position to let me know at arrangements are proposed to be made for the Special Survey to be held by the end of July.

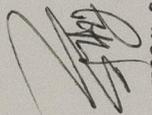

The Main Boiler and Arrwshaft Surveys become due at the end of July and August respectively, and it is concluded that these inspections will be dealt with at the same time as the Special Survey.

Date:— 16th June, 1965

Owners state that this vessel will very likely be confined, in the future, to Sydney Harbour duties only.

There is some question at present about whether she will be continued in class. Owner, however, will advise us again next week and we will keep you informed.
