Milford Queen

15th July, 1937.

Dear Mr. Mackirdy,

Your letter of the 2nd instant respecting the "MILFORD QUEEN" came duly to hand and the information you so kindly included regarding the light weight was passed on to the Superintendent of the Milford Dock, who has acknowledged it as follows to the Milford Surveyor :-

"I am extremely obliged to you for obtaining from your London Office particulars of the weight of the trawler "MILFORD QUEEN".

"As you know, we propose to electrify our hauling-up slipway, and the information was required for this purpose.

"I would like to thank you for the trouble which you and your London office have taken in the matter and I can assure you that it is very much appreciated".

Thanking you for your trouble and with kindest regards,

Yours sincerely,

*W. H. A. H.*

J. H. Mackirdy, Esq.,

HULL.
