

COPY.

30th June, 1937.

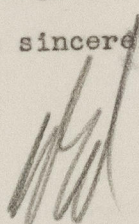

Dear Bartlett,

We have an enquiry from the Surveyor at Milford Haven in regard to the weight of the Castle type of trawler, the information being required in connection with some alterations which are being made to a slipway.

As you were responsible for the construction of these trawlers during the War perhaps you will be in a position to let me know what was the average light weight of these vessels.

With kind regards,

Yours sincerely,

C. Bartlett, Esq.,

SUNDERLAND.
