Milford Haven, 26th June 1937.

J. STOKES,
SURVEYOR.

LLOYD'S REGISTER
Received
29 JUN 1937
Ansd.

LONDON

Dear Sir,

Reference

The Superintendent of the Milford Dock, has requested me to find out the weight of a Castle type Trawler, It is their intention to make improvements to the existing Patent Slipway, and he would like to know if, in the case of the "Milford Queen" No 65046 in the Register, the 290 gross tons represent the total weight of the Vessel, without Bunker coal, empty boiler and no gear, or equipment.

I could not tell that Mr Ward definitely, the gross, was actually the weight for pulling up on a slipway, hence this enquiry.

I am, Dear Sir

Yours faithfully.

C. E. Wickes

The Secretary,

London.
