9th February, 1928.

Dear Sir,

With reference to your First Entry Report No. 92280 on the S.S. "ROBIN", I shall be glad if you will be good enough to state whether the side keelson angles and the bridge deck beams are bulb angles, and whether the size of the raised quarter deck through beams, the thickness of the deck plating and rudder plate, and the riveting of the shell seams at garboard and sheerstrake are as approved and not as stated on the report.

You should also forward particulars of the stream wire supplied.

I am, Dear Sir,

Yours faithfully,

Secretary.

Mr. A. E. Farminer,  
IPSWICH.
