reference

Dear Sir,

I am informed, today, by the Union Naval de Levante, that they are to construct, here, two auxiliary boilers for the new oil Tanker to be built in Cadiz by the Constr. Naval.

As these boilers are to be built in accordance with the plan approved for the first tankers, I assume there will be no necessity to submit a further plan in this case. A copy of the plan would, of course, accompany the Report.

I am, Dear Sir,

Yours faithfully,

K. L. Costa

The Secretary.

LONDON.
