Dear Sirs,

s.s. "SPALMATORI"

We are in receipt of your letter of the 26th instant, following on yours of the 10th instant, and note what you say regarding the completion of the Special Survey on the above vessel. We have advised the Captain to give every assistance the Surveyor to complete the survey requirements, and no doubt this will be carried out.

We are surprised that the Surveyor at Basra has been contacted regarding drydocking; this will not be necessary at this time.

As you know, the certificate issued by your Surveyor at Port Said in regard to the grounding in the Suez Canal on 14th December 1951 was issued subject to the vessel being specially examined at the next drydocking, as the vessel was drydocked in November last, and as no trouble has been reported on the ship in regard to the double bottom tanks, we do not propose to drydock her before her normal docking date, i.e. August/September 1952 - nine months from the last docking.

Yours faithfully,

for LEMOS & PATERAS LTD.
