

Steamer "SPALMATOR I"

A Representative of Lemos & Pateras telephoned to say that this vessel is due to arrive at Damman on the 12th May and they would prefer to have the Special Survey completed at that port.

The vessel's future movements have not yet been decided and it is the Owners' intention to postpone the drydocking on account of grounding for the present.

W. H. G.

28th April, 1952.
