71, Fenchurch Street, E.C.3.

16th May, 1947.

Dear Sir,

S.S. "THORA DAN"

With reference to New York Report No.47683, I have received a letter from the Copenhagen Surveyors stating the Owners desire to receive full information as to the amendment, including the size of the cabled required, in connection with your recommendation regarding the equalizer connections to the electric generators.

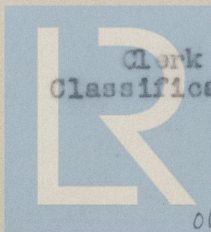

The matter has been under careful consideration here and I think it well to inform you that in view of the three generators being of equal kilowatt rating and having similar speeds, also of the satisfactory report received from you regarding their operation, no exception will be taken in this instance to the equalizer cables already fitted being retained. The Copenhagen Surveyors have been informed to this effect.

Yours faithfully,

Clerk to the
Classification Committee.

Wm. Bennett, Esq.,

NEW YORK.
